

I'm Carlie Allan of Buck & Bear Design.

I design **hand-painted murals** for modern businesses around the world, and I am a traditional **signpainter** and **gold leaf gilder**.

I paint custom murals which enhance both your businesses' unique brand strategy and visibility, with extensive knowledge of social media trends I aim to boost the social media presence of a business.

I hand paint all types of signs for shops, offices, hotels and commercial clients, along with glass gilding lettering and window displays in gold leaf.

Let's talk murals.

Known for my wall murals which feature bright colour palettes, gold leaf and unique letterforms, my mural art can be more than a backdrop for social media photos, murals offers a unique way for customers to engage with businesses.

I travel all over the world to deliver hand-painted, custom murals designed to bring brands and businesses to life, whether it's an outdoor wall display, an office or a communal workspace, murals bring an area to life.

Let's talk signwriting & gilding

Signwriting is a traditional technique of hand painting lettering and designs onto walls, fascias and windows.

I offer signage for internal and external commercial businesses like hotels, bars, restaurants, cafes, shops and offices.

Whether it's simple directional internal wall signage, or hand painted decorative fascia lettering, it helps **keep your brand identity cohesive throughout a client experience.**
